What Is Group Study Exchange?

Group Study Exchange is an educational program of The Rotary Foundation wherein Rotary districts in different countries are paired to send and receive professional study groups of non-Rotarian team members and one Rotarian team leader to travel for four to six weeks, staying in the homes of Rotarians when possible. A traditional GSE team consists of four team members plus a Rotarian team leader.

Goals and Objectives

The Group Study Exchange program is a unique cultural and vocational exchange opportunity for young business and professional men and women in their initial years of professional life. The program is designed to develop professional and leadership skills among young adults so that they can address the needs of their communities and an increasingly global workplace. GSE offers Rotarians the opportunity to participate in sending, receiving, and sharing educational experiences of study teams that will enhance Rotary's worldwide mission.

GSE participants follow an extensive and rigorous program of international travel and team activities.

- Cultural experiences
 - Allow participants to study another country and its people, language, and institutions through experiences in an organized and meaningful host program
 - Promote an appreciation of cultural diversity worldwide
- Fellowship opportunities
 - Encourage team members and hosts to meet, communicate, and live with each other in a spirit of fellowship and goodwill
 - Consider each other's problems, aspirations, and community concerns
 - Foster lasting friendships and international understanding
- Rotarian involvement
 - Offers Rotarians specific, practical, and meaningful opportunities for international service by providing young, formative professionals a different perspective of their vocation in another country and culture
